What is it?

This unique program offers the opportunity to look at your fair through the eyes of others. It is a tremendous chance to identify areas for improvement that will enhance your guests' experience at your fair.

We all know that first impressions are the ones that last and become memories. Help your fair create positive lasting first impressions by participating in this unique program.

Your agricultural society will be paired with another agricultural society. A team from each agricultural society visits the partner's fair and evaluates specific characteristics based on the visitors "first impressions"

The feedback from these visits helps to validate the areas the society is doing a terrific job at and identifies areas for improvement and where you might grow your fair.

Our program builds strong relationships among fairs and agricultural societies while providing concrete information to support strategic planning.
